TERROR AND DEATH - Belgian nuns and priests are greeted by the Papal Nuncio on their arrival in Leopoldville, Congo, after being evacuated from Kivu Province. The clergy told of the terror that erupted in Kivu after the death of Patrice Lumumba. Lumumba followers mistreated the clergy and Europeans in the area.

### President Raps Shorter Work Week Proposal

WASHINGTON (AP) - President Kennedy said today he is opposed to a shorter work week.

Kennedy told his news conference he is unhappy because the declining economy has reduced the work week for many below 40

The President was asked if he agreed with some labor union proposals that shorter hours might be one of the solutions to the present level of unemployment.

Kennedy replied that he hopes the 5-day, 40-hour week can be continued. He said it is necessary if the United States is going to continue economic growth.

"I would be opposed to any arbitrary reduction of the work week," Kennedy said, "and I am unhappy when I see the work week reduced artificially, in the they would vigorously defend sense that the pressures of a declining economy reduce it so that we get averages of 38.5 hours a week instead of the 40 hours a

Kennedy drew a laugh from reporters when he said that personally he would prefer a shorter work week, but he was opposed to curtailing work time in industry.

He said he hopes that the number of jobless, which now ranges around 6 per cent of the work force, can be reduced to 4 per cent or less. But he noted that even in peak economic periods in 1957 and 1959 there were still many unemployed in some areas

Echoing their sentiments was the Allis-Chalmers Manufacturing Co. of West Allis, Wis., which also was named in the civil action and earlier had pleaded guilty or no defense on the antitrust charges.

The two other firms named in the joint civil action filed in U.S. District Court here were the Federal Electric Co. of Newark, N.J. and I-T-E Circuit Breaker Co. of Philadelphia. They, too, had pleaded guilty or no defense on the antitrust charges.

The civil action charged that collusive rigging of bids and the illegal fixing of prices in the sale of oil circuit breakers since 1951 resulted in prices about 40 per cent higher than what should have been charged.

It alleged that TVA and the federal agencies bought more than \$25 million worth of circuit breakers at prices roughly 40 per cent too high in the last nine

Work has started on Pickaway St. between Watt and Main Sts. on Washington St. between Mound and Union and on Mound St. east of Mingo.

The Pickaway St. section remained closed today, but the areas on Washington and Mound Sts. first, most stupendous super-colloucating the children of families have been opened for cautious use. City Service Department officials today said the sections will remain torn but passable until weather permits completion of work.

> ACCORDING to the service department, as soon as the weather breaks, the areas will be covered with tar, then paved and rolled. Work on other sections of streets also is planned.

Much of the city's 38 miles of streets was damaged by frost during the recent severe winter. Particularly hard hit were sections on Pickaway and Ohio Sts.

The Justice Department sued on behalf of the Atomic Energy Commission, the Army Engineers, the Bureau of Reclamation, the Southwestern Power Administration and the Bonneville Power Administration. It seeks double damages of \$4,421,372.

> TVA contended that it can sue for itself as an independent, selfsufficient corporation and not as a government agency.

If the court upholds this theory, TVA can collect triple damages if it can prove it sustained a money loss. TVA, however, specifically asks for the treble amount of \$7,478,691. But if the agency can collect only double damages, under the federal False Claims Act, it would be entitled to re cover a maximum of \$4,985,794.

# New York OKs College Pupils

ALBANY, N.Y. (AP)-Gov. Nelson A. Rockefeller's plan to offer \$100 to \$800 a year tuition aid to nearly every New Yorker attending a private college in the state has won bipartisan approval by the New York Legislature.

The Republican governor's program to provide state grants to help pay tuition and other expenses was under attack for weeks on the ground it was wasteful and was unconstitutional under church-state separation provisions. The cost in the first year is set at \$26 million.

But the state Assembly gave final legislative approval, 120-26, Tuesday and the bill now goes to the governor for signing. The Senate previously had passed the measure, 47-7.

Throughout the controversy, Rockefeller had defended his plan as legal and as necessary to help students obtain a college educa- Missile Site Building tion in a period of rising costs. He said a system of grants would give students a choice between public and private colleges.

The grants will be limited to New York State residents attending colleges within the state where the tuition is \$200 or more a year.

Students preparing to become clergymen or working for divinity or other religious-education degrees will not be eligible.

# A Little Thin In Legislature

**Democratic Solons** Decry Delays; GOP Points to 'Mandate'

COLUMBUS, Ohio (AP)-Tempers are wearing a little thin in the Ohio legislature and so is the patience of the Democratic minority. Some of the unhappiness over the pace of the session spilled over Tuesday.

Minority Leader Frank W. King, D-Lucas, who ran the Senate two years ago when his party was in control, took the floor to urge more speed in acting on proposed laws-particularly on school, welfare and financial matters.

"One of these days, we'll suddenly find that the end of the session is upon us and, I am beginning to fear, we will have accomplished nothing," King told the Senate.

Senate Majority Leader C. Stanley Mechem, R-Athens, retorted: "Last November the voters gave the Republican party a mandate to run the legislature. We have accepted that responsibility and we intend to do just that in spite of the feelings of the minority leader.'

Sen. Ross Pepple, R-Allen, chimed in with a defense of the tempo of the session and asserted activities of the session are proceeding "with all deliberate speed." The brief flareup came as the

# Tempers Wear Farmer May Write Own Crop Program under Plan

'Religious Harmony' in U.S.

Sought by President Kennedy

dent Kennedy is expected to ask field of agriculture. Congress Thursday to approve a fadically new farm setup under problem the same principle inwhich growers would write their own crop programs, subject to legislative veto.

Congressional sources said the cies. President will seek a broad delegation of powers to him and to Secretary of Agriculture Orville L. Freeman to deal directly with farmers in forming programs embracing kindred and competing commodities.

The farmers themselves would be asked to agree on the type of federal controls, price supports and other government props they believe are workable for the particular group of growers involved.

As an example, growers of wheat, corn, oats, grain sorghum and kindred crops would be asked to form their own program. Another group might include producers of cotton seed, soybeans and peanut oil.

The hoped-for result would be to take out of the hands of Congress the job of having to draft intricate and controversial legis-

#### U.S. To Insist On Controls in A-Test Pact House prepared to close the door

WASHINGTON (AP)-The United States will insist on a substantial and effective control system in any pact with the Soviets to outlaw nuclear tests, officials said today.

While no control system can be 100 per cent foolproof, authorities said, U. S. negotiators will insist on a system strong enough to be a potent deterrent against any sneak violations of a nuclear test

Controls have been the key issue in the Geneva test ban talks which have been going on among the United States, Britain and Russia at Geneva since November

While much progress has been made at the lengthy conference, East and West still are split on major points involving how many policing inspections should be made to sites of suspected explosions and who should be on the inspection teams.

U. S. experts figure that if a treaty is agreed on, remaining gaps in the controls can be narrowed through further research and technical advances will enable the controls to become more simplified and more effective.

Arthur H. Dean, new head of the U. S. negotiating team at Geneva, gave a secret 21/2 hour briefing to the Senate Foreign Relations Committee Tuesday. He leaves for Geneva from New York tonight. The talks resume next Tuesday after a postponement giving the new Kennedy Adminis-

After a week of marking time since it resumed its session, the since it resumed its session, the assembly showed signs of getting Human Angles down to work. U. S.-Soviet negotiations to trim the agenda collapsed Tuesday, with the Soviets adamant in their rejection of an American proposal to postpone most items on the agenda-and chiefly disarmament-until the fall. The United States in turn, rejected a Soviet proposal to drop the Soviet complaint against U.S. reconnaissance flights if the charges of Communist suppression in Hungary and Tibet were dropped. Soviet delegates roamed the

U. N. corridors seeking to line up Asian-African support for an immediate Congo debate. The Soviets charged that the agreement by anti-Communist Congolese po litical leaders meeting at Tananarive, Malagasy, last week to re place the federal form of govern ment in the Congo by a confederation of semi-independent states was a Belgian trick to break up the new African nation and keep a foothold in rich Katanga Prov-

The Soviet charge was echoed by the government-controlled Cairo press, which said the United Arab Republic would request an urgent session of the Security Council to "discuss the conspiracy to dismember the Congo.'

The United States and its maior allies consider that the confederation plan is a more realistic arrangement for the Congo than the unworkable system of central control left by the Belgians, which collapsed in a welter of tribal and sectional rivalries soon after independence was wor last summer.

The Soviets, the U. A. R. and certain other African backers of the late Patrice Lumumba want a strong central government headed by Antoine Gizenga, the pro-Communist leader of the regime in the eastern Congo, who boycotted the Tananarive conference.

Kennedy, who has made it clear is the past that he does not regard himself as a farm expert, was said to have approved the principle of the new program after some rather despairing efforts had been made to draft an overall legislative program. Under the new plan, Congress

Sheldon Granger, executive secretary of the Cleveland Urban League, told the group the role of nonwhites and other minority ethnic groups in relocation plans is of particular concern.

He said the importance of the problem is underlined by the fact the majority of the nation's urban areas being razed for redevelopment are populated by nonwhites or minority groups. With relocation comes the problem of removing the age-old barriers to integrated living, he said.

DeHart Hubbard, intergroup relations officer for the Federal Housing Administration in Cleveland, said the answer must be found to the problem of financing the new housing units so the developer is able to rent the apartments to low-income families and still show a profit.

NEW YORK (AP)-The stock market milled irregularly in active trading early this afternoon. The Associated Press average of 60 stocks at noon was unchanged at 237.70 with industrials off .30, rails off .10 and utilities

Interest continued focused on specially situated stocks and these provided the wider moves, to the upside or downside.

Fractional changes were the rule for most steels, rails, motors, chemicals and oils. Electronics showed a softer tendency. Electrical equipments were down moderately. Tobaccos, airlines and rubbers were mixed.

The list was mixed at the start. Turnover was slightly more than Tuesday in the early hours.

Armour and National Dairy were up 2 points, Lockheed and National Air Lines lost more than a point, American Machine & Foundry rose about 3 and Brunswick more than 2. Boeing was up better than a piint.

The Dow Jones industrial average at noon was off 1.33 at 659.75. Corporate bonds declined in heavy trading. U.S. governments were mixed in quiet dealings.

## Community College Idea **Brings Debate**

Ohio Senate Panel Opens Hearings on Education Measure

COLUMBUS, Ohio (AP)-State lot of questions-particularly about cost and need-before they make to establish community colleges.

The Senate's Education and Health Committee conducted a first hearing Tuesday night on one permit citizens of one or more lish two-year colleges or invite | flowing water. state university branches.

Sponsored by Sens. Eugene J. Sawicki, D-Cuyahoga; Oliver Osasek, D-Summit, and Charles W. bill follows recommendations of seven members of the nine-member governor's commission which made a year-long study.

Sen. Ross Pepple, R - Allen chairman of the Education and Health Committee, is one of those who disagreed with the commission majority. The other is Dr. John C. Baker, president of Ohio University

Noting that the locality would pay for lands and buildings under terms of the bill, several Senate committee members asked about the burden on the taxpayer.

Charles W. Ingler of Dayton, who headed the study commission, and Dr. W. T. Wickham, president of Heidelberg College, both replied that local citizens would have to want, or feel the need for, such an institution badly enough to vote to establish it. It could be for two years of technical training, arts and sciences or foundation for a full four-year

The state would pay part of the operating cost through appropria tions and student fees would pay the rest, those testifying during the 31/2-hour session said. The bill calls for a State Community College Board which could approve or disapprove plans of a sevenmember local board of trustees, named by the governor.

The other measure before the legislature would give supervision to the existing State Board of

Mrs. Thomas Ham of Shaker Heights, chairman of the educa- of Italian-American Democratic tion committee of the Ohio League Organizations, had said Sunday favors the bill because, by puton the size of a community college district, it protects the state from

having too many small colleges. She also said it does not restrict state universities from administering branches in other facilities (such as high school buildings, at night) and provides for orderly expansion of branch programs through contract agreements.

Dr. Paul W. Briggs, superintendent of Parma city schools and former president of a junior college at Bay City, Mich., said an average annual cost might be \$450 per student.

Like Ingler and others, Briggs said he does not believe enactment of the bill would mean "colleges would pop up on every hill." He added that, in 35 years, only 16 community colleges have been developed in Michigan

The committee will hold a second hearing March 21, and People has indicated he thinks more should be said about the cost. Sen. John W. Brown, R-Medina, emphasized in his questioning Tuesday night that he believes the state should be doing more to guarantee that youngsters are adequately prepared in high school to earn a living.

Overshadowing the bill is the determination on the part of the Republican majority in both houses not to raise taxes. Thus, any bill which legislators might feel would further tap state revenue faces an uncertain future.

Scholars Featured At Tuesday Rites

Tuesday afternoon the Logan Elm Branch of the Pickaway County Chapter of the National Freda I. Manbeavers, 320 Lewis Honor Society will hold its Tapping Road, vs. Harold D. Manbeavers, Service in the Logan Elm High

School Auditorium. The program is in charge of the six active members - Bob Hart, president; Anne Smith, - president; Sharon Sharrett, secretary; Harriet Anderson, treasurer; Beverly Hartranft, chaplain; and Norman Wilson, sergeant-at-arms.

At the beginning of the second semester all juniors and seniors who have a 3.0 average in the academic subjects carried during high school are admitted to candidacy for election to membership. However, according to the Nat-

ional Honor Society constitution,

only 10 per cent of the junior class

and 15 per cent of the senior class

may be elected to membership in any one year. Eligibility is determined by scholarship, leadership, character and service - the four cardinal

principles of the organization. The following standards, established by the National Honor Society headquarters in Washington D. C., are used; scholarship, 40 points; service, 20 points: leadership, 15 points; and character, 25 points.

Thus, those with the highest total points will be recommended by the local faculty to the General Committee of the county for final Annual Meeting April 9-13, Cindetermination of eligibility. An- cinnati. nouncement of the new members will not be made until the day to be one of the nation's largest of the Tapping Service.

tion old age health insurance program is that it would cover all those in the eligible age brackets regardless of ability to pay.

Whether a social security health coverage could be selective, however, is doubtful. Social security itself is applicable to nearly all citizens who qualify by age.

But the question keeps recurring about the increasing burden on the earners. That these may be in shrinking numbers as their taxes go up is indicated by the proposal to have social security pensions begin at age 62 for all. The contention is that earlier retirement is needed to reduce unemployment and open more jobs to the youngsters coming along.

Social security taxes may not be particularly significant to earners of average or

# U.S. Private Citizens Get Credit for Aiding Fliers

Moscow last November urged release of the two RB47 U.S. fliers as "a healthy first step" toward improving Soviet-American rela-

President Kennedy's press secretary, Pierre Salinger, told a news conference, in response to questions, that the group of 25 included two men who now are aides to Kennedy. They are Dr. Jerome B. Wiesner, special assistant for science and technology; and Dr. Walt W. Rostow, deputy assistant for national security.

Salinger said Wiesner and Rostow were in Moscow in November -shortly after Kennedy's election -with 23 other Americans to attend a scientific conference there.

Salinger said the entire group of Americans was in Moscow as private citizens. He added it is his understanding that Soviet officials asked the Americans how relations could be improved. "My information is," Salinger

added, "that all 25 indicated that release of the fliers would be a healthy first step."

## NOTICE! TAX LEVY UPON HOUSE TRAILERS

1961-62 House Trailer Tax Will Go on Sale in the Auditor's Office March 1, 1961 Section 4503.06 (Ohio State Code)

The year for which the tax is levied shall commence on the first day of April and end on the following thirty-first day of March. The tax shall be collected by and paid to the county auditor of the county in which the house trailer is located at the time the owner makes application for

The tax shall become due and payable immediately upon the occupancy of human habitation of the house trailer except as provided in this section. If the tax is unpaid after a period of thirty days a penalty of one dollar a day for each continuing day of nonpayment to a maximum of twenty-five dollars shall be imposed and collected in addition to the tax. If the owner of a house trailer fails to pay the tax within the prescribed time, the county auditor, in addition to any other remedy provided by law for the collection of taxes, shall enforce collection by a civil action in the name of such auditor against the owner for the recovery of the unpaid taxes.

SENTIMENTAL DEAR SENTIMENTAL: If you want a "big, glamourous" wedding -and your parents can afford it -go ahead and have one.

DEAR ABBY: My girl is a doll but she has a cute little hobby of collecting salt shakers wherever we stop to eat (and with the purse she carries she has no trouble getting away with it). She now has 37 pair and is working toward 40. Help, Abby!

DEAR SALTY: Your gir! friend's "cute little hobby" should not be taken so lightly. It is stee' ing. Even if she takes it with a grain of salt.

P.S. Remember Lot's wife?

DEAR ABBY: I recently spent five weeks in the hospital. While I was there my husband came to see me and found one of the men patients in my room visiting with me. Abby, my husband accused me of everything in the book, which is ridiculous because the man was 72 and looked every day Mr. and Mrs. James Pierce, of it, and I had my leg in a cast Route 4, entertained Saturday my back in a brace and 21 stitches

#### **Neil Morris** To Attend **COSBA** Meet

Neil Morris, Route 1, Kingston, president of the county board of education, will attend an organizational meeting of the Central Ohio School Boards Association Thursday at Ohio State University.

Morris is a member of the executive committee of the Regional Association and is also a member of the Board of Trustees of the State Association

The COSBA obtains its membership from the boards of education in fifteen centrally located counties of Ohio and represents all of those counties in its endeavors toward better school administration.

Counties included in the jurisdiction of the COSBA are: Pickaway, Coshocton, Crawford, Delaware, Fairfield, Fayette, Franklin, Knox, Licking, Madison, Marion, Morrow, Richland, Ross and Union.

Boards of education are kept informed on all proposed school legislation as it is introduced and any changes made in the laws governing school administration through the medium of legislative reports sent out each week by the Association while the General Assembly is in session. It is not a lobbying group but it does assume the responsibility of supporting or apposing any bill that will affect the welfare of Ohio's schools and the boards who operate them. Since school boards have no other organization to represent them and their interests before the General Assembly, the service rendered by Is New President COSBA is very valuable. #### Jury Reaches No Decision in **Pretenses Case**

A Pickaway County Common Pleas Jury couldn't reach a decision Monday in the case of the State of Ohio vs. Harold Knece, Circleville. Knece was being charged with obtaining money under false pretenses. Jury members returned to the

court room at about 4:15 p. m. Monday. Hoyt Timmons, jury foreman, announced that they couldn't reach a decision due to lack of evidence. It was reported that the vote

was 10-2 for acquittal, but the law requires a unanimous decision in criminal cases. Knece, indicted by the January

session of the Pickaway County Grand Jury, was charged with obtaining \$100 from Rose Hitch Schwalbaugh under false pretens-

MRS. Schwalbaugh gave testimony on behalf of the State. She alleged that while serving a Juvenile Court sentence in the Pickaway County Jail, Knece visited her on or about August 25, and told her that a friend of hers had been arrested in Franklin County.

She further stated that Knece requested that she give him \$100 so that the friend could be released from custody.

Mrs. Schwalbaugh continued to say that she gave him the money and later learned that her friend had not been arrested and that Knece used the story to obtain the \$100.

Prosecuting Attorney Robert Huffer represented the State of Ohio in the court action. Kenneth Robbins, local attorney, was

counsel for Knece. The case is pending i nPickaway County Common Pleas Court. It will be dismissed by the court or

tried again. Jury members were: Hoyt Timmons, foreman, Arthur Rooney, Carl Angles, William Clark Sr. Virginia Bixler, Paul Brobst, My ron Seymour, Hester B. Watson, Wayne Hartman, Mrs. Effie Hill, Vivian Michael and James Hooks.

Kennedy got hemisphere attention | health, housing, better use of with the 10-point program he laid land down this week for Latin America. But there wasn't much new in it. He had said most of it before, and then some.

During the presidential campaign-last Oct. 18 at Tampa-he proposed a 12-point program. But this latest one got maximum staging. He unveiled it during a White House reception for 250 Latin American diplomats.

They were generous in their praise for what he said. But back home officials of their governments were much more restrained. Some expressed disap-

It sounded big, the way Kennedy unfolded his program. But the unanswered question is: How really big is it? It isn't a Marshall plan like the one under which this country poured billions into Europe to get it on its feet after

There's a difference. The millions of Europe were both educated and skilled and needed money to get their industries going again. In Latin America millions lack education and skills,

With them it's a problem of trying to bring them abreast of the 20th century. Kennedy didn't put a price tag on his proposals. He told the Latin Americans in effect that they'll have to help themselves to get help from us.

But he put it much more gently than that. As for immediate money he asked Congress to let him spend \$500 million in Latin Amer-

to take that next and final step. He acknowledged in Tampa last year \$500 million is far from enough to meet Latin American needs.

He said then nearly all our economic aid to Latin Americawhich has been getting only about 5 per cent of our total foreign aid -has been in the form of loans

to buy American exports. He said Latin Americans would pay more in interest that year (1960) to the Export-Import Bank than the entire \$500 million which Eisenhower asked from Congress. Most of what Kennedy suggested

Kennedy called for both tax and land reform if the needs of most Latin Americans are to be met. There was a hint in what he said that unless a Latin-Americas country institutes reforms, it can't expect help.

Also last month two senators-Wayne Morse, D-Ore., and Bourke Hickenlooper, R-Iowa-made a report of their own on Latin America, They said: Latin America's upper classes must recognize they can no longer maintain "their traditional elite society and economic monopoly."

## Hope Is Seen For Treatment Of Mongolism

By THE ASSOCIATED PRESS

Mongolism and a cause for hope, dogs and heart attacks, common colds, and sharp razors are subjects with a focus on

RAZOR'S EDGE

Razor blades take off four to 15 times as much skin as electric razors, says Boston researchers. Seven times as many complaints of after-shave burn come from razor users as from electric shav-

er users in tests on 249 men and 120 women, indicates a report in GP, journal of the American Academy of General Practice.

HOPE FOR MONGOLISM A young French scientist who

has found a strange error in the body chemistry of mongoloid children now says: "There is no reason to say that mongolism is definitely incurable.'

Tests on mongoloid children indicate the error may affect production of a key brain chemical, serotonin. The discovery comes from Dr. Jerome Lejeune of the University of Paris who also found the children possessed an abnormal number of chromosomes -those delicate strands of genes that determine what we will be.

Dr. Lejeune recalled an experiment 23 years ago in which fruit flies with abnormal chromosomes suffered from small, slitted eyes. When fed corrective material, the fruit flies became normal again.

So far Dr. Lejeune has been unsuccessful in finding an answer to human mongolism, reports Medical World News. In fact, Dr. Lejeune says the error may not be the only or the responsible one in mongolism, but it is a lead.

Dogs often fall victim to one of man's big enemies, heart disease, a new report shows.

A study of 3,000 dogs by University of Pennsylvania veterinarians found 290 with reliable signs of heart disease and 322 others with suspected disease.

#### Redleg Brass Is Impressed By Coleman

SARASOTA, Fla. (AP)-Gordie Coleman, the sturdy first baseman from Rockville, Md., is a smoother, more skilled player for Cincinnati's Reds this year. The Cincinnati brass think that

with his hitting talent, he'll stick. Coleman's two-run homer Tuesday highlighted a power barrage that brought Cincinnati its first exhibition victory in four tries, 7-4 over Detroit's Tigers.

His clutch wallop broke a 3-3 tie in the sixth inning and the Reds added insurance runs in the seventh and ninth. Frank Robinson, Gus Bell and Elio Chacon also homered.

The 28-year-old businessmanfighter was subpoenaed for a U.S. courthouse appearance at Miami today. The government action was aimed at tieing up any funds Ingo may have received in advance as well as money promised him by Feature Sports Inc. and Tele-PrompTer. TPT handled the television, movies and radio rights on the Patterson-Johansson fight.

Johansson already has received \$550,000, including \$300,000 for 1959-60 and \$250,000 for the third fight. This has been transferred to a Swiss bank. Johansson claims Swiss residence and says he is an employe of Scanart, a Swiss corporation.

Johansson's lawyer, Matthew Manners of New York, contends Ingo does not have to pay U. S. taxes because he pays Swiss taxes—a light bite of about 10 per cent compared to the 87 per cent bracket he falls into here.

TUCSON, Ariz. (AP) - Frank Lane, Kansas City A's General manager, visited the Cleveland Indians' training camp Tuesday and let it be known he is in search of pitching talent.

"You've got 75 grand tied up in him," Lane said, "And for all you know he'll fall off one of these mountains and break his arm and never be any good to you. Just on a gamble, I'll give you a hundred thousand for him, cash on the barrel head, today," Lane added. Hoot Evers, Manager Jimmie Dykes and Vice President Nate

Dolin answered "no" in unison. Lane went on, "I could make you a good deal, for a couple of your young pitchers. I might even give you Jerry Lumpe or Dick Williams and maybe a pitcher for your bullpen," he proposed. "We have a lot of relief pitchers. What

I need is two starters," Lane said. Lane said he is interested in Jim Grant, Dick Stigman, Barry Latman, Wynn Hawkins and maybe Bob Allen. Lane would give Lumpe or Williams, and Don Larsen, for his choice of two.

"Larsen can pitch you two or three pretty good innings," Lane "I wouldn't want to guanantee any more than that. Lumpe or Williams would give you the best infield in the league," said

#### Weiss Turns Attention to New Ball Club

MIAMI BEACH, Fla. (AP) Retirement for busy George Weiss apparently means a big new job and two salaries.

Weiss, who left his long-time job as general manager of the New York Yankees last October (he had passed the club's mandatory retirement age), was named president of the New York National League club Tuesday. He will take up his duties immediately although the club is not scheduled to operate until 1962.

The appointment brought up the question of whether baseball law will permit him to receive salaries from two clubs.

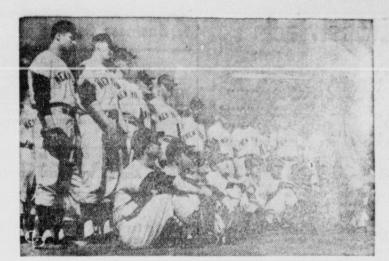

Weiss, 66, has been serving as a consultant to President Dan Topping of the Yanks and has been receiving a salary under a carry-over contract which has five years to run. The new arrangement was made wit? Topping's approval.

Asked about the dual salary situation, Weiss said:

"I see no reason why not as long as one is not dependent on the other and there is no conflict of interest. Actually my income from the Yankees is at a reduced scale and represents deferred compensation. It is money I earned the previous year. That income will be further adjusted now that I'm with another club.'

As consultant, Weiss reportedly was receiving about \$35,000 half his former Yankee salary. Estimates put his pay as president of the still-unnamed new club at

Yogi Berra and Elston Howard have followed similar trails with the New York Yankees. Both were born in St. Louis and both now live in New Jersey. In addition, they're both catcher-outfielders.

WHAT? ALREADY?-Yep, the baseballers are at it already, although this is an advance camp of the Yankees at St. Petersburg, Fla. The new manager, Ralph Houk, gives out with some instructions.

· Cat Phobia Q. At what age should a baby be taught to use a cup? A. All babies should probably be

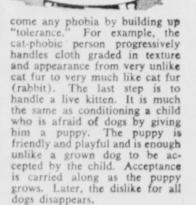

trained to the cup before the end of the first year. The longer a baby is allowed to have a bottle the harder it is to wean him. Q. How much vitamin C does the body need?

A. School-age children and adults need about 75 mg. per day. In pregnancy, the requirement is about 100 mg. daily; for nursing mothers, about 150 mg. daily.

Q. If cesarean section is harmless, why aren't all babies delivered this way?

A. Who said cesarean section is harmless? The operation involves increased hazards to the mother, to the child, and to future child bearing. There are medical indications for cesarean section. When these do not exist, normal vaginal delivery is best by far.

Q. I am absolutely terrified by eats. Is there any way to overcome this phobia? A. With proper professional guid-
